28 April 2026

Dear Parents,

Attached please find the June examination timetable.

This examination timetable has been very challenging to draw up thanks to the mandatory inclusion of the Tourism PAT and Life Sciences Practical, as well as the large number of different subject packages that we offer to our learners. Considerations have to be made for all the grades as well as for the educators who find themselves under an extreme amount of pressure having to get all the marking completed while also doing the invigilation. In addition, we have the National Senior Certificate Supplementary Examinations running simultaneously and we are a NSC Examination Centre this year. This impacts significantly on venues and invigilation.

My sincere thanks go to Mrs Edy for all the effort that has gone into getting as fair and balanced a timetable as possible. Thank you to the Departmental Heads and Head of Subjects who have assisted her with his mammoth task.

The instructions for the examination period will be sent out closer to the examinations, and will include details of study venues, collection times and areas that will be out of bounds during the examinations.

We thank you for your support and understanding that it very difficult to draw up a timetable that will suit every single learner. Fortunately, the learners have plenty of warning so with good time management and a sensible revision programme, we are confident that no learner will be disadvantaged.

Yours sincerely,

Mrs D. P. Knight

Principal
